Portfolio: https://mohdfaizn.netlify.app

PROFESSIONAL SUMMARY:

Engineering graduate with hands-on experience in Python, FastAPI, Django, and databases (PostgreSQL, SQLite). Skilled in building secure, scalable RESTful APIs and backend systems, with practical experience integrating LangChain and Ollama (LLaMA3) models for AI-powered applications. Strong understanding of backend architecture, asynchronous programming, and production-ready deployments. Curious, proactive, and eager to contribute to impactful backend projects.

TECHNICAL SKILLS:

Languages: Python, SQL, JavaScript, HTML, CSS

Frameworks & Libraries: FastAPI, Django, SQLAlchemy, Streamlit

Databases & Cloud: PostgreSQL, SQLite, MySQL, MongoDB, AWS S3

API & Backend Tools: RESTful APIs, Pydantic, asynchronous programming, Gunicorn, Uvicorn, Render, Docker

LLM & AI: LangChain, Hugging Face Transformers, Mistral-7B (Inference API), Sentence Transformers, FAISS (Vector Database), Ollama (LLama3), RAG Architecture

Version Control & CI/CD: Git, GitHub

Testing & Dev Tools: Postman, Selenium (Basics)

PROJECTS:

AskMyDoc – AI-Powered Document Question Answering System (LangChain + FAISS + Mistral-7B)

Tech Stack: Python, LangChain, FAISS, Mistral-7B (Hugging Face Inference API), Sentence Transformers (all-MiniLM-L6-v2), Hugging Face Spaces, Streamlit

- Developed an AI-driven document assistant that allows users to upload and query .pdf, .txt, or .md files in natural language using Retrieval-Augmented Generation (RAG) pipeline built with LangChain, FAISS, and Mistral-7B (Hugging Face Inference API)
- Integrated Sentence Transformers (all-MiniLM-L6-v2) for semantic text embeddings and similarity-based retrieval, ensuring highly contextual and accurate responses to user queries.
- Developed a Streamlit-based interface and deployed the application on Hugging Face Spaces, featuring secure token handling, modular architecture, and real-time document querying performance.

Smart Parking System using IoT

Tech Stack: Python, FastAPI, SQLAlchemy, PostgreSQL , Arduino, HC-SR04 Sensor, Pydantic, bcrypt, BackgroundTasks

- Developed a secure RESTful API backend using FastAPI to manage real-time parking slot booking, user authentication, and live slot status for 20+ parking spaces.
- Integrated Arduino sensors with backend RESTful APIs to detect occupancy and update slot availability in real time.
- Implemented smart routing and live slot visibility to improve user experience and reduce manual parking effort.
- Optimized backend performance using asynchronous endpoints, scoped SQLAlchemy sessions, BackgroundTasks, and ensured data security with bcrypt hashing, API key validation, and Pydantic input validation.

SnapBuy - Django E-commerce Website

Tech Stack: Python, Django, PostgreSQL, Razorpay API, JavaScript (AJAX), HTML/CSS, Gunicorn, Render

- Developed a scalable e-commerce backend with secure user authentication, product management, and order handling using Django ORM and PostgreSQL.
- Designed RESTful API endpoints for product, user, and order modules to enable seamless data exchange and maintain modular structure.
- Integrated Razorpay payment gateway for secure and real-time transaction processing.
- Implemented session-based cart management using AJAX to enhance responsiveness and dynamic user experience.
- Deployed the platform on Render with Gunicorn WSGI and environment-based configuration, ensuring a production-ready and maintainable system.

INTERNSHIP:

Web Development Intern – Vault of Codes | July 2023 – Dec 2023

- Developed responsive front-end interfaces using HTML, CSS, and JavaScript with cross-browser compatibility.
- Built and integrated RESTful API endpoints to connect front-end with backend services.
- Collaborated on full-stack development, version control with Git/GitHub, and Agile workflows.

EDUCATION:

Bachelor of Engineering (B.E.) - Electronics and Communication
New Horizon College of Engineering, Bangalore — 2021 - 2025

Pre-University Course (PUC) - PCMCs
Mahesh PU College — 2019 - 2021

Secondary Education
Christ School — 2016 - 2019

CERTIFICATIONS:

- SQL(Basic& Intermediate) - HackerRank
- Snowflake Data Warehousing & Analytics
